Reinforcement: Physical and Chemical Changes. A simple assignment that reviews physical and chemical changes with your physical science pupils. They fill in the blanks in a paragraph about each. In addition, they list three examples of each. Without a word bank, it may prove somewhat challenging to decide what words to fill in, so perhaps you could use this as a partner assignment or display a word bank on the board.

Although there isn't a specific recommended course of study for eighth-grade science, students typically continue to explore earth, physical, and life science topics. Some students may take a general or physical science course for high school credit while in eighth grade. Common general science topics include the scientific method and terminology. Earth science topics include ecology and the environment, conservation, composition of the earth, oceans, atmosphere, weather, water and its uses, ...
