Did my mums car over the weekend. Updated her 3G Plus MMI system to FW version K942 & the latest 2017 maps version 6.24.2 You will need VCDS to clear the errors and code the adaptation for the errors which show up due to the system not being able to verify with the Audi servers. Took about 1 hour for the FW update and 1.5 hours for the maps.

Audi's have always been defined by their interiors but the A6 also has a real sense of space in the cabin. There is a blend of classy design quality materials throughout. Its MMI infotainment system is very user friendly but when compared to the Mercedes system or BMW's latest iDrive, it's getting very close to requiring an update.
