estimates that there may eventually be up to 4,000 additional cancer deaths related to the accident among those exposed to significant radiation levels.

Nuclear and radiation accidents and incidents - Wikipedia

Deforestation or forest clearance is the removal of a forest or stand of trees from land that is then converted to non-forest use. Deforestation can involve conversion of forest land to farms, ranches, or urban use. The most concentrated deforestation occurs in tropical rainforests. About 31% of Earth's land surface is covered by forests at present. This is one-third less than the forest cover ...
