compressors, and they certainly vary in size and other area, there are similarities that will allow you to check and see why “an air compressor will not start , by yourself and hopefully not taking it to a shop which is both expensive and time consuming.

## **Air compressor will not start**

Kobalt air compressors are the house brand of the Lowes of big box store fame. Made for Lowes, the Kobalt line of air compressors is powered by electric motors and come in portable and fixed styles. The range of motors is from 1.5 HP up to 5 HP. These motors power a range of Kobalt [...]

## **Kobalt Air Compressors - Fix My Compressor**

The two most common styles are stationary and portable air compressors. Stationary units are larger, hold more air (which keeps it from kicking on and off constantly while in use), and often get installed with the intention of never being moved. A portable or mini air compressor is made to move quickly and easily from one location to another.
