Environmental Management for Sustainable ... management (ICZM) and integrated management of land and other resources are other approaches to NRM.5 This paper discusses these approaches, ... tools to support the management of social-ecological systems under climate change,” Ecology and Society, Vol. 19, No. 3, 2014, ...

Integrated Natural Resources and Environmental Management ...

Agroecology (a-grō-ē-'kă-lə-jē) is the study of ecological processes applied to agricultural production systems. Bringing ecological principles to bear can suggest new management approaches in agroecosystems. The term is often used imprecisely. Agroecologists study a variety of agroecosystems. The field of agroecology is not associated with any one particular method of farming, whether it ...

Agroecology - Wikipedia

Conduct workshops, training/ awareness/sensitization programs etc. on sustainable agriculture, climate resilient agriculture, agrobiodiversity management, agroforestry, integrated nutrient management, ecological pest management, sustainable resource conservation technologies etc. with the active involvements of various regional/national/and international agricultural organizations
